

Welcome to the Municipality of Lyngby-Taarbæk

Lyngby-Taarbæk is a privileged municipality in almost all aspects. It is at one and the same time a commercial, industrial, university, green residential, cultural and recreational town. More than half of the municipality is field, forest, lake and stream. The countryside can be enjoyed in the Deer Park, another option is canoeing on the Mill Stream passing the many mills, the cradle of the Danish industry. Or you may choose to go by boat on the lakes with the Bådfarten from the medieval church in the centre of Kgs. Lyngby. Also, there is the Open Air Museum to visit, works of arts to contemplate at Sophienholm, concerts, drama and films to enjoy at the Arts Centre. And Dyrehavsbakken is where one goes to have fun. All this is available just 8 miles from the centre of Copenhagen.

Yours Sincerely,

Rolf-Aagard-Svendsen
